2013 BUICK ENCORE --- ACCESSORIES LAUNCH KIT

"Buick Encore is a great-looking, smart choice for those who want luxury crossover amenities in a more maneuverable and agile vehicle. It represents a luxury alternative for a new audience of Buick customers, and delivers features and flexibility not typically found in vehicles of its size today."

— Tony DiSalle, U.S. Vice President of Buick Marketing

Dear Buick Dealer Principal,

Like a valuable, finely tuned Swiss watch, the new **2013 Buick Encore** is a sight to behold and a pleasure to experience. Its subtle, swooping exterior styling, luxurious interior and acoustic refinements embody what's important in the small, luxury crossover category.

This **Encore Accessories Launch Kit** has been updated to include ADI to Dealer Accessories as well as LPOs. We urge you to review this new content with your salespeople and become familiar with the Buick Encore Accessories portfolio.

For further questions, please contact your Buick Zone Team or ADI.

Good selling!

CUSTOMER INSIGHTS

Encore's target prospects are luxury buyers who are open-minded, independent, creative, active and spontaneous. Their vehicle must resonate with them both on an emotional and rational basis — and Encore does just that.

It's a fresh idea for this consumer — a human kind of luxury. It's luxury how they want it to be, not how others say it should be.

Here's what else you should know about Encore buyers:

- Looking to shed excess, "rightsize" their lives and possessions
- Looking for a personal-use vehicle for errands and commuting that does not have extra unused space
- Looking for a smaller vehicle that is easier to maneuver, gets better gas mileage and reduces their cost of purchase
- May be "graduating" from a minivan or larger SUV for the young family to something more "reasonably sized" and personal
- Still want personal luxuries in their vehicle (maybe even more so at this point in their lives)
- Gravitate toward crossovers/SUVs due to seat height, cargo space, flexibility and AWD capability
- Predominantly female (around 60 percent)
- Customers will either have no children, or have 1–2 children who are teenagers or older. Most will not have children of stroller/car-seat age
